Caregiver interview questions and answers

1. Say why you want to work as a caregiver

Why do you want to work as a caregiver?	I like helping people, and I'm patient. When I help someone and they smile, I feel that my day was good.
Do you have any experience caring for someone?	Yes, I took care of my grandmother for three years. I cooked for her, and I went with her to the doctor.
I have never had help at home. Why should I trust you?	I understand, it's a big thing. I'm honest, I'm on time, and what I see in your home stays in your home.

2. Say what you can do in the morning

What can you do for me in the morning?	I can cook breakfast, wash the dishes, do the laundry and help you with shopping. I can also just sit and talk.
Can you cook?	Yes. I can make eggs, soup, rice and simple dinners. Tell me what you like, and I'll learn it.
Can you come every day at eight?	Yes. I live twenty minutes away by bus, and I leave early. If I'm ever late, I'll call you first.
I like my privacy. How do you feel about that?	I understand. I knock first, and I don't open your things. I don't talk about your home with other people.

3. Say what you do if a client falls

What would you do if I fell while you were here?	I would stay with you and stay calm. I would call for help right away. Then I would stay with you until help comes.
What if you can't find something I ask for?	I tell you, and I ask you where it is. I don't just guess.

4. Answer a client who says she does not need any help today

Suppose I tell you I don't need any help today. What do you say?	Of course. I'm here if you need me. Maybe I can do one small thing, like make tea, and you do the rest.
But I'm fine, really. I can do it myself. What now?	That's good to hear. It's your home and your choice. I'll sit here, and you can call me when you want.
