IELTS Speaking mock test online

1. Answer part 1 questions about yourself

Where do you live?	I live in Valencia, in a flat near the center. I've lived here for five years, since I moved for my job.
Why did you choose that job?	Because I like helping people. My mother was a nurse too, so I saw what the work was like.

Good morning. My name is Elena Torres.	I live in Valencia, on the east coast of Spain.	I'm a nurse in a children's hospital.
I chose it because I like helping people.		

2. Say you are ready after your minute to think

Describe a place you like to visit. Say where it is, how often you go, what you do there, and why you like it.	Notes: Green Lake, 2 hours. Spring and autumn. Walk, picnic. Silence, clear water.

Ready.	Sorry, could you repeat the last point?

3. Talk about your card for one to two minutes

Would you go there again?	Yes, definitely. I'm planning a trip in April with my brother, and I'd like to walk the whole path this time.

I'd like to talk about a small lake in the mountains.	I usually go there in spring.	What I like about it is the silence.
Something else I should mention is the water.	Let me think... how can I put it?	So, to sum up, it's a place I'd go back to.

4. Discuss wider questions in part 3

Why do people like to travel to other countries?	I think it's mainly because they want to see new things and meet different people. Also, they want a break from their daily life.
Do you think tourism is good for a place?	In some ways, yes. It brings money and jobs. On the other hand, prices go up in summer, and local people can feel crowded.
How do you think travel will change in the future?	I think people will travel less by plane because of the environment, and more by train. It's hard to say, but I'd guess trains will get faster.

In my opinion, it does more good than harm.	I think it's mainly because people want a break.	That's an interesting question.
On the other hand, prices go up.	It's hard to say, but I'd say more people will take the train.
